Aviation Team of Experts

The high profile aviation industry is constantly changing with both volume and technology, and with it, the associated losses become more complex and frequent. The aviation industry also encompasses aviation cargo, and aviation liability.

The SLG Aviation Team provides the following services for their clients:

- Recovery and Subrogation Services
- Salvage Services
- Loss and Claim Investigation
- Liability Investigation and Claims Handling
- Risk and Crisis Management Services
- Repair Assessments and Evaluations
- Operational Safety Surveys
- Salvage Sales and Asset Management
- Incident Site Restoration, and Environmental Loss Assessment
- Hull and Avionics Surveys and Appraisals
- Expert Management Services for Repair and Salvage Operations.
- Aviation and Airport Liability, Damage and Bodily Injury Loss Handling and Assessment
- Aviation Site Machinery Loss and Liability Assessment

Damages can range from extensive aircraft damage, to major accident investigation which involve complete loss of aircraft and fatalities.

The SLG Aviation Team of experts adapt with the industry and provide exceptional specialized claims handling and surveying expertise.
